# A Complete Door System

A Therma-Tru® door with genuine Therma-Tru parts is more than just a beautiful door. It's a complete door system – from the glass to the hinges – made to perform as good as it looks.

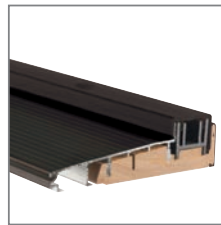

## 4 Ball-Bearing Hinges

Hinges with ball bearings protect each hinge pivot, offering added support and stability to help keep your door opening and closing smoothly.

## 5 7-Shape Corner Seal Pads

(Inswing Only) This innovative design creates a protective air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

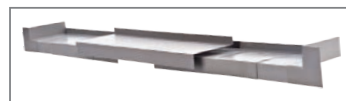

## 6 Composite Adjustable Sill

Inswing and outswing composite sills resist rotting and insects. Inswing adjustable sills help to maintain a tight seal over time.

## 7 Dual-Bulb / Dual-Fin Bottom Sweep

(Inswing Only) Two bulbs compress to sit tight against the sill, while two fins act like walls to form barriers and a built-in rain deflector pushes moisture away.

## 8 Sill Pan

Fits between the sill and subfloor for an added layer of protection against moisture. Engineered with sloped channels to help collect and drain moisture away.

## 9 Glass Options

## 10 Finish — Paint or Stain

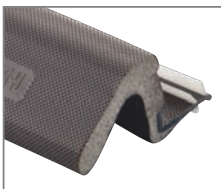

## 11 Adjustable Security Strike Plate

(Not available on all configurations) Helps enhance the safety and security of a home, wrapping around the door jamb and fully engaging the frame of the house for added support and strength against forced entry.

## 1 Rot Resistant Frame

Standard product features rot resistant frame. Composite frame offered as an option. The composite frame offers the strength and stability of wood but will not rot, warp or split, and is resistant to mold and mildew.

## 2 Removable Weatherstrip

Our resilient design compresses when closed and springs back when opened. It's protected by a durable jacket for long-lasting sealing power.

## 3 Hardware

Basic hardware included. Upgrade options available.

# PRISMA GUARD™

## Finished for Lasting Beauty

Handcrafted and professionally applied, a PrismaGuard finish is built to last, giving your customers confidence and peace of mind.

Durable  
Topcoat

Professional  
Application

### PrismaGuard® Stain

Brings the authentic look of wood to life with rich tones that add dimension to enhance wood grain doors.

### PrismaGuard® Paint

Delivers a pop of color, allowing you to tailor the look to make a beautiful lasting impression.

## SYMPHONY COLLECTION™

### Introducing the Symphony Collection by Boise Cascade

Enhance your home with this palette offering a ten year PrismaGuard warranty.

- 1 It starts with the realistic wood grains and deep embossments of a Therma-Tru® door or composite door frame.
- 2 A base coat provides an even, consistent color across the surface.
- 3 A wiping stain enhances the base coat while adding dimension to reflect the natural beauty of wood.
- 4 A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
- 5 A second application of the topcoat provides added durability and optimal sheen for a high-end look.
