PrismaGuard® Finish for Lasting Beauty

With an inspirational palette of stain and paint colors, PrismaGuard finish allows you to express your unique style while complementing your home's overall look. A high-end, low-maintenance finish protects your door from everyday wear and tear and is designed for optimal performance with Therma-Tru fiberglass doors.

Backed by a 10-Year Limited Warranty

Low-maintenance PrismaGuard finish preserves your door's lasting beauty and protects against normal wear and tear, saving you time and money. A durable coating protects your door from the elements, preserving its color for years to come and is backed by a 10-year limited finish warranty for your peace of mind.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller for details on the PrismaGuard warranty and exclusions.

Care & Maintenance

Preserve the beauty of your door's finish.

How do I clean the door?

Use a soft towel, warm water and mild soap.

How do I repair a scratch?

For minor scrapes and scratches, your dealer may offer a touch-up kit designed to coordinate with the finish color.

How often do I need to reapply topcoat?

Exterior finishes can be affected by exposure to sun, weathering, moisture and air pollutants. It is recommended to reapply a topcoat every 3–5 years or once you see a decrease in gloss. Apply a high-quality, low-gloss exterior-grade urethane clear coat without ethylbenzene to the surface.

See it for yourself.

Pre-finished door skin samples can be purchased at store.thermatru.com.

Express your unique style.

Handcrafted and perfected by professionals, a PrismaGuard finish is built to last, just like the Therma-Tru doors it was designed for.

PrismaGuard® Stain

Brings the authentic look of wood to life with rich tones that add dimension to enhance wood grain doors.

- 1 It starts with the realistic wood grains and deep embossments of a Therma-Tru door or composite door frame.
- 2 A base coat provides an even, consistent color across the surface.
- 3 A wiping stain enhances the base coat while adding dimension to reflect the natural beauty of wood.
- 4 A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
- 5 A second application of the topcoat provides added durability and optimal sheen for a high-end look.

Classic Craft Mahogany Grain, Homeward Glass, Door – CCM82801, Finish – Barley

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller for details on the PrismaGuard warranty and exclusions.

PrismaGuard® Paint

Delivers a pop of color, allowing you to tailor the look to make a beautiful lasting impression.

- 1 It starts with the smooth or wood-grained surface of a Therma-Tru door or composite door frame.
- 2 A base coat provides an even, consistent color across the surface.
- 3 A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
- 4 A second application of the topcoat provides added durability and optimal sheen for a high-end look.

Pulse Ari, Echelon Glass with Flat Lite Frame, Doors – S83EC, Finish – Canyon

Therma-Tru is proud to partner with Yellowstone Forever, the official nonprofit partner of Yellowstone National Park. Select colors in our PrismaGuard portfolio are inspired by the beauty found in Yellowstone National Park. Look for the (🌲) symbol.

Tested to meet tough expectations.

PrismaGuard premium finish is put through multiple rigorous tests in our engineering labs. This helps ensure that our PrismaGuard finish is built to last, just like the Therma-Tru® doors it was designed for.

Lasting beauty and color.

Using specialized equipment, PrismaGuard stains and paints are tested to help deliver a consistent high-end appearance perfect for wood-grained or smooth door surfaces.

Resistance against wear and tear.

PrismaGuard finish is subjected to a simulation of everyday use to provide a durable high-end, low-maintenance finish that protects the door from normal wear and tear.

Protection from the elements.

Therma-Tru simulates exposure to harsh environments to help verify that PrismaGuard finish coating protects the door from the elements, preserving its color for years to come.

Confidence on the coast.

Therma-Tru simulates a highly corrosive atmosphere to help ensure PrismaGuard finish can withstand the damaging effects of high-salt environments near the coast.

Leave it to the professionals.

Have peace of mind knowing that PrismaGuard stain and paint is applied with care by highly trained professionals in a controlled environment designed to minimize imperfections and produce a beautiful finish.
