The Importance of Curb Appeal.

A stylish new front entryway can help convey your personal style and highlight your home's overall architectural style and curb appeal.

Fresh look. Increased value.

In a recent survey, real estate agents were shown images of various homes, including some that had been modified with a new Therma-Tru door, and asked to estimate the value of the home. While results varied, the survey suggests choosing a Therma-Tru door that complements the home's architecture could **add up to 7% to the perceived value** of a remodeled home.***

That's a potential increase of **up to \$21,000** on a \$300,000 home for a project that can be done in a single day.

“The door gives a focal point to the front of the house.”

– Homeowner, Survey Respondent
