MANIFEST YOUR OUTER HOME

## Entryways come to life with Therma-Tru® glass.

Choose a Therma-Tru door system with glass for a beautiful, durable entrance that showcases your high standards for style, quality and craftsmanship. Our wide array of glass designs — from simple to intricate — features selections to complement any home.

- Numerous glass textures, shapes, colors and coming options complement any Therma-Tru door, and provide flexibility to match your personal style.
- We research our glass designs to ensure they are highly rated in consumer preference.
- We have decades of experience and technical know-how in creating quality glass designs that deliver optimal performance.
- Therma-Tru decorative glass is handcrafted and built with all-glass bevels.
- Backed by a lifetime limited warranty when installed in a fiberglass door system for peace of mind.
- All interior and exterior glass panels, including Low-E and clear glass, are laminated or tempered for added safety.

### **LIFETIME** LIMITED WARRANTY

Fiber-Classic,  
Smooth-Star, Pulse  
Fiberglass

### **LIFETIME LIMITED WARRANTY**

We place a lot of emphasis on achieving the highest level of customer satisfaction. That's why Therma-Tru fiberglass door systems carry a lifetime limited warranty. Should any issues arise during or after installation, we'll address them in a professional, timely manner.

### **QUALITY TESTING**

Our doors, glass and components undergo thorough testing to help ensure they will live up to a homeowner's toughest quality and performance expectations.

We even have our own engineering lab — approved to perform specific test methods with a third-party witness — as part of our ongoing commitment to ensuring that our products live up to our high standards for durability and reliability.

## Energy Efficiency

### YEAR-ROUND COMFORT, NO MATTER THE WEATHER

Factory-coated Low-E glass features a thin layer that reflects infrared and ultraviolet (UV) light, helping deliver exceptional energy efficiency.

In cold weather, Low-E glass reflects a home's heat back inside to help keep the home warm.

In warm weather, Low-E glass reflects the sun's rays off the glass and a home's air conditioning back inside to help keep the home cool.

### ENHANCED FOR ENERGY EFFICIENCY

# Tough when you need it. Beautiful always.

## High-Power Testing

Our Impact-rated doors pass a large missile impact test. We blast a 9 lb. 2" x 4" stud into the doors at 34 mph to prove they're the better choice for strength and stability.

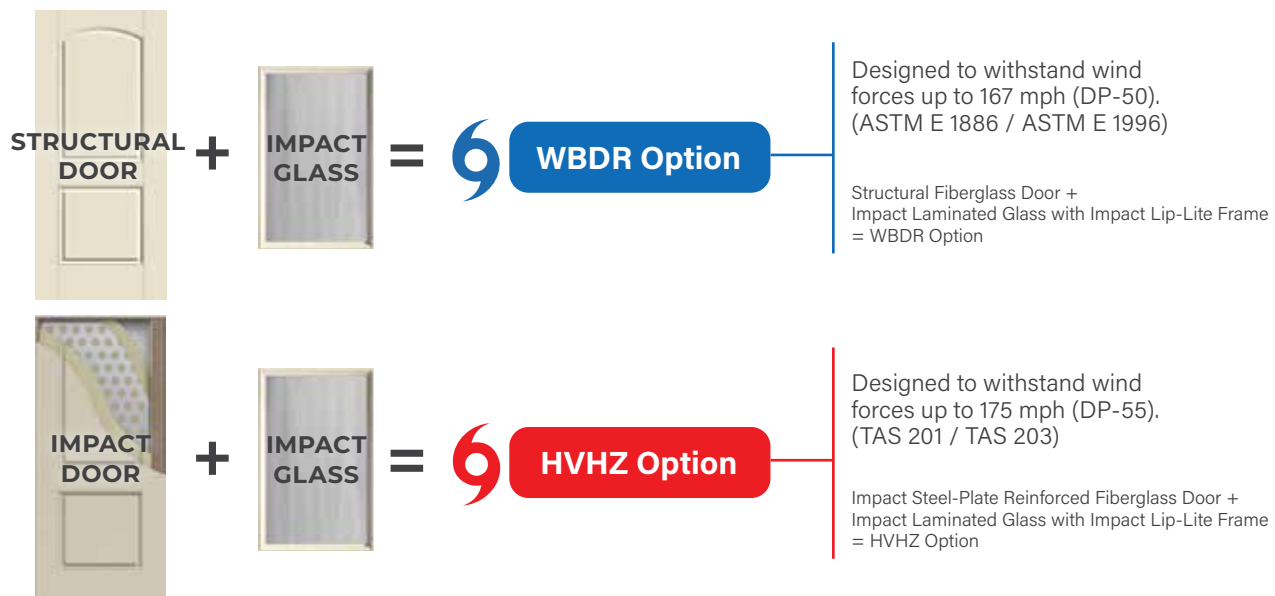

## Impact-Rated Products

Therma-Tru offers Impact-rated doors and glass that can be used to meet high-wind and coastal region codes and regulations, offering excellent performance in extreme weather conditions while providing added protection.

### 1 Use the map as a guide to find out if you need product for WBDR or HVHZ.

Always confirm building code requirements in your area before buying.<sup>1</sup>

### 2 Use the icons to find available Therma-Tru® product options in this catalog.

**WBDR / HVHZ Options:** Look for this icon to find door and sidelite styles that can be configured for WBDR or HVHZ.

### 3 Verify that there is a Therma-Tru product approval specific to your area for the door system configuration before buying.<sup>1</sup>

### 4 Make sure the product is installed in compliance with the product approval to meet building codes.

The performance of the door system depends on how it is installed. Proper installation is required to comply with building codes.

<sup>1</sup>Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed. Note: See your Therma-Tru seller or visit [thermatru.com](http://thermatru.com) for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

**NEW** WBDR full-lite flush-glazed styles starting on page 33.

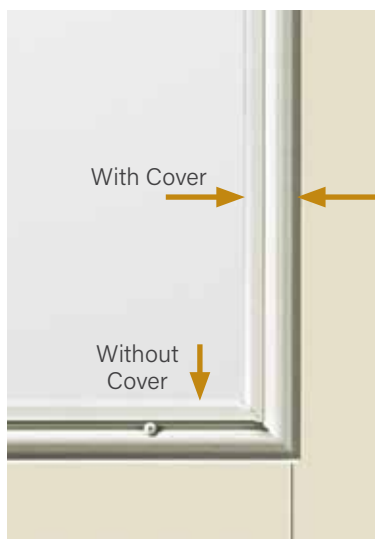

## IMPACT OPTIONS

Constructed to help protect the interior of the home from flying debris and high winds associated with tropical storms and hurricanes, these products are tested to meet codes and regulations in coastal regions, including parts of Florida, Texas and the Carolinas.<sup>1</sup>

### Doors

Feature a built-in 24-gauge steel plate.

### Lip-Lite Frame

Features durable, paintable aluminum construction. An attractive scrolled profile gives a thin, sleek appearance and a screw channel cover helps hide unsightly screws.

### Glass

Features special laminated glass construction.

### Internal Blinds

Features laminated glass construction and a durable, paintable aluminum lite frame with a flat profile.

## OTHER CONSIDERATIONS

### **E** Elevated 10" Bottom Rail

Look for the ( **E** ) symbol.

# Impact-Rated Glass

Therma-Tru's Impact-rated glass meets coastal region codes and regulations<sup>1</sup> offering excellent performance in extreme weather conditions while providing added protection.

- Used for products in coastal applications, Therma-Tru measures the resistance of the glass to flying debris by firing a 2" x 4" wood stud at a speed of 34 mph to help prevent damage inside the home from severe weather.
- Available in 14 decorative glass options, 7 privacy and textured designs, as well as internal blinds and clear glass.
- Special laminated glass construction helps protect the interior of the home.
- Tested to meet code requirements in coastal areas, including parts of Florida, Texas, and North and South Carolina.<sup>2</sup>
- Some glass and door configurations are available for use in High Velocity Hurricane Zone (HVHZ) and Wind-Borne Debris Regions (WBDR).
- Designed to withstand wind forces up to 175 mph (DP-55) for high-wind and coastal applications when paired with an approved Therma-Tru HVHZ Impact-rated door. Able to withstand wind forces up to 167 mph (DP-50) in a Therma-Tru non-HVHZ Impact-rated door.

# Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse Doorglass

Therma-Tru® Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors offer a variety of decorative glass options designed to meet any taste. This selection is inspired by various home and architectural styles, from Victorian to Contemporary. And whether you need greater energy efficiency or privacy, there's an option to suit you.

## Great style for any home.

- 16 decorative glass designs offer a look that matches any home and homeowner's style.
- Invite light into the home for a more brilliant interior with EnLiten™ flush-glazed designs featuring 25"-27"-wide glass, or 22"-wide glass in a Lip-lite frame.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.

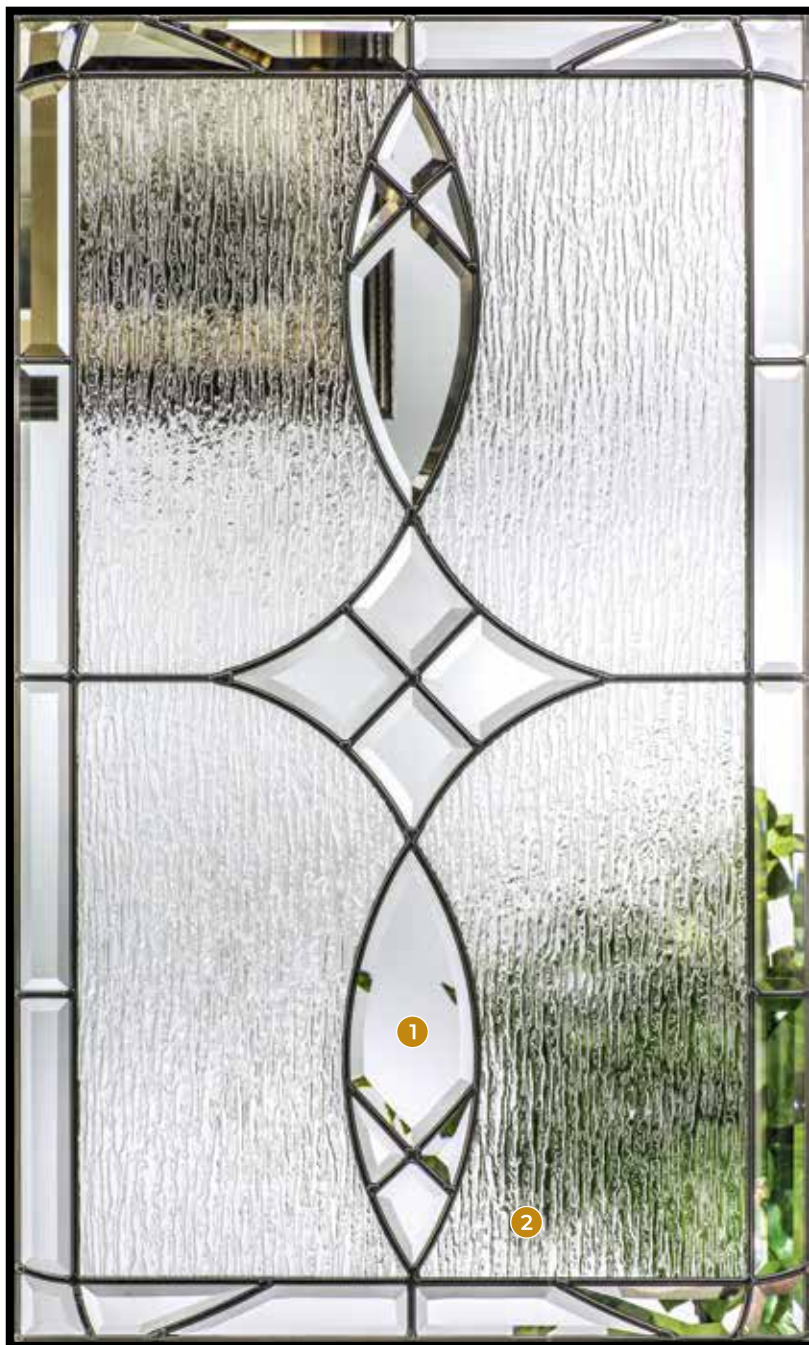

### Triple-Pane Construction

All triple-pane decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Note: See your Therma-Tru seller or visit [thermatru.com](http://thermatru.com) for details on ENERGY STAR qualified products.

# Lite Frame Divided Lite Options

## Simulated Divided Lites (SDLs) with Grilles Between Glass (GBGs)

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- SDL bars layered over GBGs create a more authentic divided lite look.
- Wood-grained or smooth textures can be stained or painted any color to complement the door and home.
- We recommend applying SDLs over bronze GBGs with flat bars to achieve the most authentic divided lite look.

Shown with flat bronze GBGs.

## Simulated Divided Lites (SDLs)

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- Wood-grained or smooth textures can be stained or painted any color to complement the door and home.

Available in select flush-glazed styles. See page 32.

# Internal Blinds

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with a single handle that opens, closes and tilts the blinds.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Privacy bars eliminate visibility into or out of the home, as well as reduce sun glare.
- Choose Low-E glass for exceptional energy efficiency, or standard clear glass.
- EnLiten™ flush-glazed designs and Impact-rated options available.

# EnLiten™ Flush-Glazed Designs

EnLiten flush-glazed designs feature double- or triple-pane glass built directly into the door with a high-performance dual adhesive weather seal. This creates a seamless look with a simple profile around the glass and no lite frame or screw plugs. Expand your view by 16%<sup>1</sup> — choose flush-glazed glass for more natural light and a sleek, uninterrupted aesthetic.

## See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

**Flush-Glazed Glass with Square Sticking**  
Look for the ( ◀ ) symbol.

**Lip-Lite Frame**

## Warranty riders for peace of mind.

### EnLiten™ Flush-Glazed Rider

#### For Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

#### For Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.

<sup>1</sup>EnLiten flush-glazed designs offer up to a 16% increase in visible glass area compared to conventional lite frames.  
Note: Please verify that there is a Therma-Tru product approval specific to your area for the door system configuration before buying.  
Bottom: Smooth-Star, Satin Etch Glass with SDLs, Door – S85710XE, Finish – Onyx

## Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

### Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

### 11% More Energy Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.<sup>1</sup>

### Withstands Winds Up to 167 mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).<sup>2</sup> (ASTM-E330)

## Warranty riders for peace of mind.

### EnLiten™ Flush-Glazed Rider for Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

### EnLiten™ Flush-Glazed Rider for Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.
